IAOP Chapters: Malaysia

Inaugural Meeting – To Be Announced Shortly!

The primary purpose of this chapter is to position Malaysia as a strategic location focused on outsourcing services spanning its core domain competencies, with the principal aim of enabling IAOP members and the global sourcing industry with information and thought leadership from Malaysia. Focus shall also rest in providing insights into location competencies specific to South East Asia.

The chapter shall provide a forum for C level decision makers, providers, buyers and advisory firms in South East Asia to network, collaborate and share best practices in the industry. The chapter will work closely with other regional (and global) chapters to bring together shared competencies, including contributing directly to creating outsourcing professionals within the larger region through IAOP's COP Program. MDeC as an arm of the federal government of Malaysia is keen on making the COP a mainstay professional recognition within the industry. Specifically the Malaysia chapter would lead the COP Master Class program in South East Asia.

IAOP members wishing to attend the upcoming meeting please email the chapter coordinator at amanda.corbett@outsourcingprofessional.org **If you are not as yet a member of IAOP** and would like a guest pass for the meeting, please [Request a Guest Pass](#).

CHAPTER CHAIR

Bobby Varanasi, COP

Head - Marketing & Branding, OM
Multimedia Development Corporation Sdn Bhd
MSC Headquarters Persiaran APEC
63000 Cyberjaya Selangor Malaysia
